

# Data sheet household washing machines

In acc. with delegated regulation (EU) No. 1061/2010

| Miele   |             | WWV980 WPS<br>PASSION |                             |  |  |
|---|-------------|-----------------------|-----------------------------|--|--|
| Model name / identifier   |             |                       |                             |  |  |
| Rated capacity <sup>1</sup>   | kg          |                       | 9,0                         |  |  |
| Energy efficiency class<br>A+++ (most efficient) to D (least efficient)                     |             |                       | A+++                        |  |  |
| Annual energy consumption (AE <sub>c</sub> ) <sup>2</sup>                                   | kWh/year    |                       | 109                         |  |  |
| Energy consumption of the standard "60°C cotton programme" at full load                     | kWh         |                       | 0,60                        |  |  |
| Energy consumption of the standard "60°C cotton programme" at partial load                  | kWh         |                       | 0,43                        |  |  |
| Energy consumption of the standard "40°C cotton programme" at partial load                  | kWh         |                       | 0,35                        |  |  |
| Weighted power consumption in off-mode (P <sub>o</sub> )                                    | W           |                       | 0,30                        |  |  |
| Weighted power consumption in the left-on mode (P <sub>i</sub> )                            | W           |                       | 0,30                        |  |  |
| Weighted annual water consumption (AW <sub>c</sub> ) <sup>3</sup>                           | Litres/year |                       | 11.000                      |  |  |
| Spin-drying efficiency class<br>A (most efficient) to G (least efficient)                   |             |                       | A                           |  |  |
| Maximum spin speed <sup>4</sup>   | 1/min       |                       | 1.600                       |  |  |
| Remaining moisture content <sup>4</sup>   | %           |                       | 44                          |  |  |
| Standard programme to which the information in the label and the fiche relates <sup>5</sup> |             |                       | Cottons 60/40<br>with arrow |  |  |
| Programme time of the standard programme  |             |                       |                             |  |  |
| 60°C cotton programme (full load)   | min         |                       | 179                         |  |  |
| 60°C cotton programme (partial load)  | min         |                       | 179                         |  |  |
| 40°C cotton programme (partial load)  | min         |                       | 179                         |  |  |
| Duration of the 'left-on' mode (T <sub>i</sub> ) <sup>6</sup>                               | min         |                       | 15                          |  |  |
| Airborne acoustical noise emissions   |             |                       |                             |  |  |
| Washing phase <sup>7</sup>  | re 1 pW     |                       | 46                          |  |  |
| Spinning phase <sup>7</sup>   | re 1 pW     |                       | 72                          |  |  |
| Built-in  |             |                       | -                           |  |  |

This product does not release silver ions during the washing cycle.

● Yes, standard feature

<sup>1</sup> In kg of cotton for the standard "60 °C cotton programme" at full load or the "40 °C cotton programme" at full load, whichever is the lower.

<sup>2</sup> Based on 220 standard washing cycles for cotton programmes at 60 °C and 40 °C at full and partial load, and the consumption of the low-power modes. Actual energy consumption will depend on how the appliance is used.

<sup>3</sup> Based on 220 standard washing cycles for cotton programmes at 60 °C and 40 °C at full and partial load. Actual water consumption will depend on how the appliance is used.

<sup>4</sup> Attained for the standard "60 °C cotton programme" at full load or the standard "40 °C cotton programme" at partial load, whichever is the lower, and remaining moisture content attained for the standard "60 °C cotton programme" at full load or the standard "40 °C cotton programme" at partial load, whichever is the greater.

<sup>5</sup> These programmes are suitable to clean normally soiled cotton laundry and are the most efficient programmes in terms of combined energy and water consumption.

<sup>6</sup> If the household washing machine is equipped with a power management system.

<sup>7</sup> For the standard "60 °C cotton programme" at full load.
